

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

March, 1922

Published by the School of Education of The University of North Carolina, Chapel Hill, N. C.

Issued Eight Times a Year from October to May

Subscription Price \$1.50 a Year

Entered as Second-Class Matter, March 1, 1918, at the Postoffice at Chapel Hill, North Carolina
Under the Act of March 3, 1879

**All the Recent Important Discoveries
In Chemistry and Physics**

**McPHERSON AND HENDERSON'S
Chemistry and Its Uses**

Nearly Ready

A new chemistry that is up to the minute in every detail and gives the latest developments in such subjects as radium and nitrogen fixation. It trains the pupil to think in terms of chemical laws and facts and encourages him in the solution of new problems. The amazing chemical advances incident to the World War are adequately described. Practical application in the arts and industries as well as in everyday life is stressed.

**MILLIKAN AND GALE'S
Practical Physics**

This standard text in physics is used in over 4,700 schools throughout the country. Interesting discussions of the automobile, the airplane, the submarine, help the pupil to realize the practical connection of physics with the everyday world about him.

These books emphasize basic principles by applying them to everyday life. They are profusely illustrated with cuts and diagrams and written in a simple, clear, concise style. They give the pupil the essentials in a way that arouses and maintains his enthusiasm.
